

# POSTER TOPICS INDEX

## **PS1 -- Axillary Staging; Surgery**

Axillary Staging and Sentinel Nodes

Breast Conservation

Surgery

Reconstruction

## **PS2 -- Markers; Pathology**

Diagnostic Pathology

Circulating Biomarkers and ctDNA

Circulating Tumor Cells

Micrometastases

Detection and Diagnosis -- Other

## **PS3 -- Imaging**

Mammography

MRI

Imaging -- Other Methods

Imaging -- Molecular, Functional

Tumor Monitoring

Screening

## **PS4 -- Predictive Biomarkers -- Chemo and Combined Therapies**

Predictive Biomarkers -- Chemotherapies

Predictive Biomarkers -- Combined Modality Therapies

Predictive Biomarkers -- Other

## **PS5 -- Predictive Biomarkers -- Endocrine and Targeted Therapies**

Predictive Biomarkers -- Endocrine Therapies

Predictive Biomarkers -- Targeted Therapies

## **PS6 -- Prognostic Factors**

Prognostic Factors -- Clinical Validation

Prognostic Factors -- Index Scores

Prognostic Factors -- Other

## **PS7 -- Epidemiology**

Epidemiology -- Population Studies

Epidemiology -- Genetic and Molecular

Ethnic and Racial Aspects

Disparities and Barriers to Care

Epidemiology, Risk, and Prevention -- Other

## **PS8 -- Risk Factors and Prevention**

Familial Breast Cancer -- Genetic Testing

Familial Breast Cancer -- Molecular Genetics

Prevention -- Behavioral Interventions

Prevention -- Nutritional Studies

Prevention -- Clinical Trials

Prevention -- Preclinical Studies and Model Systems

Risk Factors and Modeling

**PS9 -- Psychosocial, Quality of Life, and Educational Aspects**

Cost-Effectiveness  
Doctor-Patient Communication  
Education  
Psychosocial Aspects  
Quality of Life -- Supportive Care  
Survivorship Research  
Psychosocial, Quality of Life, and Educational Aspects -- Other

**PS10 -- Systemic Therapies I -- Targeted**

Adjuvant Therapy -- Targeted  
Advanced Therapy - Targeted  
Antibody-Based Regimens  
HER2-Targeted Therapy

**PS11 -- Systemic Therapies II -- New**

New Drugs and Treatment Strategies  
Novel Targets and Targeted Agents  
Adjuvant Therapy -- Other  
Advanced Therapy -- Other  
Tissue and Data Banks  
Clinical Trials Design and Management

**PS12 -- Systemic Therapy III -- Endocrine and Immunotherapy**

Adjuvant Endocrine Therapy  
Advanced Endocrine Therapy  
Neoadjuvant Endocrine Therapy  
Immunotherapy (Clinical)

**PS13 -- Systemic Therapies IV -- Chemotherapies**

Adjuvant Chemotherapy  
Advanced Chemotherapy  
Neoadjuvant Chemotherapy  
Toxicities -- Management

**PS14 -- Systemic Therapies V -- Tumor Types; Other**

Bone Metastases  
Brain Metastases  
DCIS/LCIS  
Male Breast Cancer  
Inflammatory Breast Cancer  
Treatment -- Other

**PS15 -- Radiation Therapy**

Radiation Therapy

**PS16 -- Tumor Cell and Molecular Biology I**

Drug Resistance  
Epigenetics  
Epithelial-Mesenchymal Transition  
Genetics -- Germline Changes  
Genetics -- Somatic Changes  
Microenvironment -- Stromal-Epithelial Interactions  
Stem-Progenitor Cells

**PS17 -- Tumor Cell and Molecular Biology II**

Angiogenesis

Animal Models

*Ex vivo* Models

Endocrine Therapy and Resistance

Growth Factors

Immunology and Preclinical Immunotherapy

Metabolism and Breast Cancer

**PS18 -- Tumor Cell and Molecular Biology III**

Genomics

Molecular Profiles

New Drugs and Mechanisms

Novel/Emerging Therapeutic Targets

Tumor Heterogeneity/Molecular Subclassification

Tumor Cell and Molecular Biology -- Other

**PS19 -- Tumor Cell and Molecular Biology IV**

Apoptosis and Senescence

Cell Cycle Regulation

Cellular Mechanisms

DNA Damage and Repair

Hormonal Factors and Receptors

MicroRNAs and Other Non-coding RNAs

Oncogenes/Tumor Suppressor Genes

Signaling Pathways

Tumor Progression, Invasion, and Metastasis

**OT -- Ongoing Clinical Trials**
